

ENVIRONMENTAL POLICY

Harman, recognizing the importance of the environment for current and future generations, is committed to:

1. Preserve and protect the environment, adopting actions to prevent pollution and minimize the environmental impacts of our activities;
2. To take full account of environmental legislation and applicable standards and rules, as well as to follow and apply best environmental practices;
3. Fulfill our responsibilities to society, clients, government agencies, employees and other stakeholders;
4. Commitment to the evaluation and continuous improvement of the Environmental Management System.
